What happens after the cremation?

Following the cremation of a loved one, there are several options for the care and memorialisation of their ashes.

We understand and appreciate that deciding on the final resting place can take time and that's why we offer flexible and supportive solutions to meet your needs.

We can safely and securely store the ashes giving you the space and time to make a thoughtful decision. During this time we are available to help and discuss the various Memorial options including:

- **Scattering ashes** in our gardens
- **Burying ashes** in a Memorial garden of your choice
- **Placing the ashes** in an above ground Memorial option

You also have the option to split the ashes should you wish to have a Memorial within our grounds but also have a home-based Memorial where you can keep ashes. This also gives you the option to place ashes into jewellery, urns or other keepsakes in the future, should you wish.

Whatever your decision we are here to support you throughout the process, ensuring that your loved one's memory is honoured in a way that feels right for you and your family.
